(application filed after June 7, 1995 but prior to May 29, 2000)

The patent term extension is 0 days. Any patent to issue from the above identified application will include an indication of the 0 day extension on the front page.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term extension is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

## Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## EXAMINER'S AMENDMENT

### *Priority*

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Clifford Browning on November 18, 2002.

The application has been amended as follows:

#### **The Claims:**

In claim 4, line 3, delete "poloxamer 407" and insert – said poloxamer --.

In claim 5, line 4, delete "poloxamer 407" and insert – poloxamer --.

In claim 10, line 1, delete "deterging" and insert – cleansing --.

## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendments, Applicant's arguments, and the Examiner's Amendment are sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent are WO 99/27060 and Ellis et al (US 6,277,365).

Art Unit: 1751

'060 teaches solutions useful to clean contact lenses including a surfactant component in an effective amount; and a viscosity inducing component preferably selected from cellulosic derivatives and more preferably hydroxypropylmethyl cellulose, in an effective amount. Such solutions which may include one or more additional components, have substantial contact lens cleaning benefits which, ultimately, lead to ocular health advantages and avoidance of problems caused by contact lens wear. See Abstract. However, '060 does not teach or suggest the use of hyaluronic acid or salts thereof as required by the instant claims.

Ellis et al teach compositions and methods for treating the surface of the eye, or contact lenses to be placed on the eye, with an aqueous composition comprising a quaternary nitrogen-containing ethoxylated glycoside and a therapeutic agent. The composition is particularly suited for use with silicone-containing contact lenses. However, Ellis et al do not teach the use of a poloxamer surfactant. Additionally, the Examiner asserts that one skilled in the art would not be motivated to use the hyaluronic acid as taught by Ellis et al in the composition taught by '060 because '060 does not teach the use of cationic glycosides which are needed to make hyaluronic effective and '060 is drawn to contact lens cleaning compositions while Ellis et al is drawn to wetting solutions.

None of the references or record, alone or in combination, teach or suggest a cleaning composition and method of using such a composition to clean contact lenses containing hyaluronic acid or salts thereof, a poloxamer surfactant and the other requisite components in the specific proportions as recited by the instant claims.

Art Unit: 1751

Accordingly, since the prior art fails to teach or suggest such a composition and method of using such a composition to clean contact lenses as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory R. Del Cotto whose telephone number is (703) 308-2519. The examiner can normally be reached on Mon. thru Fri. from 8:30 AM to 6:00 PM.
